2012 WORKPLACE AND GENDER RELATIONS SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

Defense Manpower Data Center
Human Resources Strategic Assessment Program
4800 Mark Center Drive, Suite 04E25-01, Alexandria, VA 22350-4000

Acknowledgments

Defense Manpower Data Center (DMDC) is indebted to numerous people for their assistance with the 2012 Workplace and Gender Relations Survey of Active Duty Members, which was conducted on behalf of the Office of the Under Secretary of Defense for Personnel and Readiness (OUSD[P&R]). The survey program is conducted under the leadership of Kristin Williams, Director of the Human Resources Strategic Assessment Program (HRSAP).

Policy officials contributing to the development of this survey include Darlene Sullivan and Nate Galbreath (SAPRO), and Melissa Cohen (USMC).

DMDC's Survey Design, Analysis, & Operations Branch, under the guidance of Elizabeth P. Van Winkle, Deputy Branch Chief, is responsible for the development of this survey. The lead survey design analyst was Lindsay Rock, Sociologist. She also designed the unique presentation of complex items used in this tabulation volume. Carol Newell, Team Lead of Survey Operations, is responsible for the survey database construction and archiving. The lead operations analyst on this survey was Margaret Coffey, who used DMDC's Statistical Analysis Macros to calculate the estimates presented in this tabulation volume.

DMDC's Personnel Survey Branch, under the guidance of David McGrath, Branch Chief, is responsible for sampling and weighting methods used in the survey program. The lead sampling analyst on this survey was Owen Hung, SRA International Inc., supported by Fawzi Al Nassir, SRA International Inc., who used the DMDC Sampling Tool to plan the sample and develop weights for this survey. Carole Massey and Sue Reinhold provided programming support for the sampling and weighting tasks. Data Recognition Corporation (DRC) performed data collection and editing.

Lynn Walthall, SRA International, Inc., formatted and assembled this tabulation volume using DMDC's Survey Reporting Tool. A team consisting of Lindsay Rock, Margaret Coffey, and Natalie Namrow, SRA International Inc., completed quality control for this tabulation volume.

	a.	How to file a restricted report?	488
	b.	How to file an unrestricted report?	490
		SEXUAL ASSAULT TRAINING	
80.		you had any military training during the past 12 months on topics d to sexual assault?	492
81.	My Se	ervice's sexual assault training	494
	a.	Provides a good understanding of what actions are considered sexual assault	494
	b.	Teaches that the consumption of alcohol may increase the likelihood of sexual assault	496
	C.	Teaches how to avoid situations that might increase the risk of being a victim of sexual assault	498
	d.	Teaches how to intervene when you witness a situation involving a fellow Service member (bystander intervention)	500
	e.	Teaches how to obtain medical care following a sexual assault	502
	f.	Explains the role of the chain of command in handling sexual assaults	504

DMDC xv

	g.	Explains the reporting options available if a sexual assault occurs	.506				
	h.	Identifies the points of contact for reporting sexual assault (e.g., SARC, Victims' Advocate)	.508				
	i.	Explains how sexual assault is a mission readiness problem	.510				
	j.	Explains the resources available to victims (e.g., Safe Helpline)	.512				
82.	In you	r opinion, how effective was the training you received in	.514				
	a.	Actually reducing/preventing sexual assault or behaviors related to sexual assault?	.514				
	b.	Explaining the difference between restricted and unrestricted reporting of sexual assault?	.516				
83.		ou aware of the following sources for understanding sexual assault ntion and response?	.518				
84.	confid suppo	ou aware that the Department of Defense has a live, one-on-one, lential hotline called DoD Safe Helpline that provides sexual assault ort worldwide and 24/7 to members of the DoD community via , telephone, and texting services?	.520				
85.		lid you hear about the DoD Safe Helpline?					
		REACTION TO SEXUAL ASSAULT					
86.	Are the following statements true or false?						
	a.	When you are in a social setting, it is your duty to stop a fellow Service member from doing something potentially harmful to themselves or others	.524				
	b.	If you tell a Sexual Assault Response Coordinator (SARC) or Victims' Advocate (VA) that you were sexually assaulted, the SARC/VA is not always required to provide your name to your commander	.526				
	C.	Your communications with a SARC or VA are protected by the Victims' Advocate Privilege (MRE 514)	.528				
	d.	If you were to experience unwanted sexual touching, but not rape, you could report your experience to a SARC or VA	.530				
	e.	If you are sexually assaulted, you can trust the military system to protect your privacy	.532				
		protest your privacy					
	f.	If you are sexually assaulted, you can trust the military system to ensure your safety following the incident	.534				

xvi DMDC

		h. If you are sexually assaulted, you can request a transfer and receive a response within 72 hours						
	87.	Suppose you see a Service member, who you do not know very well, getting drunk at a party. Someone tells you that one of your coworkers is going to lead that Service member off to have sex. What are you most likely to do in this kind of situation?						
	88.	Which reason below best explains your reaction to the situation in the previous question?						
PRIOR EXPERIENCES								
	89.	Experience of unwanted sexual contact rate prior to entry into the military 544						
	90.	Constructed from Q32 and Q90: Experience of unwanted sexual contact rate since joining the military (including those who experienced unwanted sexual contact in the past 12 months)						
HOW ARE WE DOING?								
	91.	In your opinion, has sexual assault in our nation become more or less of a problem over the last 4 years?						
	92.	In your opinion, has sexual assault in the military become more or less of a problem over the last 4 years?

2012 WORKPLACE AND GENDER RELATIONS SURVEY OF ACTIVE DUTY MEMBERS: TABULATIONS OF RESPONSES

Introduction to the Survey

The Human Resources Strategic Assessment Program (HRSAP), Defense Manpower Data Center (DMDC), conducts both Web-based and paper-and-pencil surveys to support the personnel information needs of the Under Secretary of Defense for Personnel and Readiness (USD[P&R]). These surveys assess the attitudes and opinions of the entire Department of Defense (DoD) community on a wide range of personnel issues. Human Relations Surveys are in-depth studies of topics and populations, often requiring both paper-and-pencil surveys and Web-based surveys.

This report contains tabulations of responses from the *2012 Workplace and Gender Relations Survey of Active Duty Members* (*2012 WGRA*) conducted September 17, 2012 to November 7, 2012. This introduction (1) summarizes the survey content, (2) defines the total population surveyed and the subgroups used in tabulations of responses, (3) summarizes the survey methodology, ¹ and (4) provides details on how to use the tabulations. The tabulations and a copy of the survey items follow this introduction.²

Survey Content

The 2012 WGRA continues a line of military sexual harassment research begun in 1988. DMDC conducted Joint Service surveys of active duty members on gender issues in 1988, 1995, 2002, 2006, and 2010. DMDC expanded this line of research to the Reserve/National Guard in 2004, 2008, and 2012 and to the Service Academies in 2005. Since 1995, the questionnaire was designed to estimate both the level of sexual harassment in the Services and provide new information on a variety of consequences of harassment (Bastian, Lancaster, & Reist, 1996). In 2006, the questionnaire was significantly revised to collect parallel information on sexual assault in the Services. The 2012 WGRA is the sixth DMDC active duty survey of gender relations issues and was modeled on previous DMDC surveys of Reserve component and active duty members, the 2008 Workplace and Gender Relations Survey of Reserve Component Members, the 2010 Workplace and Gender Relations Survey of Reserve Component Members. The current survey was subdivided into the following 11 topic areas:

- 1. *Background Information*—Service status, gender, paygrade, and race/ethnicity.
- 2. *Military Life*—Deployments to operations in past 12 months, deployments to a combat zone in past 12 months, and safety from sexual assault while deployed and while at home base/installation/ship.
- 3. Your Military Workplace—Gender mix of workgroup; characteristics of immediate supervisor; satisfaction with supervisor, work, and coworkers;

¹ Details on survey methodology are reported in DMDC (2012b).

² Refer to DMDC (2012a) to view an HTML mock-up of the survey as it appeared on the Web.

- readiness; morale; unit cohesion; retention intention; overall satisfaction with military life; and workplace hostility.
- 4. Stress, Health, and Well-Being—Physical well-being, level of stress in work and personal life, perceived stress, experience of symptoms of posttraumatic stress disorder (PTSD) and depression, perceived connection of PTSD and/or depression symptoms to personal traumatic events, and barriers to getting mental health care.
- 5. Gender-Related Experiences—Experiences of discrimination, unwanted gender-related behaviors, and sexual harassment in the 12 months prior to the survey.
- 6. Unwanted Sexual Contact—Experiences of sexual contact against members' will or without consent in the 12 months prior to the survey; frequency of experiences; and details pertaining to the one situation that had the greatest effect, including specific behaviors experienced, where the situation occurred, involvement of alcohol/drugs, characteristics of offenders, experiences of sexual harassment or stalking by the offender, to whom the behaviors were reported, members' satisfaction with the reporting process (if applicable), reasons for reporting (if applicable), when situation was reported (if applicable), actions taken and consequences of reporting (if applicable), reasons for not reporting (if applicable), and whether the respondent would make the same reporting decision.
- 7. Personnel Policy and Practices—Leadership's support to stop sexual assault and sexual harassment and views on current gender-related policies and leadership practices.
- 8. Sexual Assault Training—Military training received in past 12 months and perceived effectiveness of training on sexual assault prevention of and response and awareness of prevention and response resources.
- 9. Reaction to Sexual Assault—Knowledge about sexual assault reporting, individual responsibilities in sexual assault situation and bystander intervention.
- 10. *Prior Experiences*—Experiences of unwanted sexual contact prior to entry into the military and since joining the military.
- 11. How Are We Doing?—Perceptions of sexual assault within the military and in the nation and how they have changed over the past four years.

Population and Reporting Categories

The population of interest for the 2012 WGRA consisted of members of the Army, Navy, Marine Corps, and Air Force, excluding National Guard and Reserve members, who (1) had at least six months of service at the time the questionnaire was first fielded and (2) were below flag rank.

Survey results are presented by a variety of reporting categories. To form the reporting categories for the tabulations, respondents are classified by their responses

to survey items. If the self-reported data are missing, then DMDC's *Active Duty Master File (ADMF)* is used to impute the subgroup classification at the time of sampling. Survey results are tabulated by Service, paygrade, gender, race/ethnicity, experienced unwanted sexual contact (USC), and experienced sexual harassment (SH). Definitions for reporting categories follow:

- Service—The categories include Army, Navy, Marine Corps, and Air Force.
- Paygrade—The Enlisted subgroup includes all enlisted paygrades (E1 E9). The Enlisted subgroup is broken into: junior enlisted members (E1 E4) and senior enlisted members (E5 E9). The Officers subgroup includes commissioned officers (O1 O3 and O4 O6).
- Gender—This category includes Females and Males overall and gender broken into the following categories: Service, Paygrade, Experienced USC, Deployment, and Service by Enlisted/E1 – E4/Officer.
- Deployment—The categories include Deployed Past 12 Months and Not Deployed Past 12 Months.
- Race/Ethnicity—Respondents are classified based on self-reported categories consistent with requirements of the Standards for Maintaining, Collecting, and Presenting Federal Data on Race and Ethnicity (1997). Total Minority includes all persons marking one or more of the races other than White and/or marking that they were Spanish/Hispanic/Latino. Non-Hispanic Black includes persons marking only Black or African-American and not reporting Spanish/Hispanic/Latino. Hispanic includes anyone marking that they are Spanish/Hispanic/Latino, regardless of how they answered the question on race.
- Experienced USC—The categories include Experienced USC for those who
 experienced unwanted sexual contact in the past 12 months and Not
 Experienced USC for those who did not experience unwanted sexual
 contact in the past 12 months.
- Experienced SH—The categories include Experienced SH for those who
 experienced sexual harassment in the past 12 months and Not Experienced
 SH for those who did not experience sexual harassment in the past 12
 months.

Survey Methodology

The survey administration process began on September 17, 2012, with the mailout and e-mail of an announcement letter to sample members. The announcement letter and e-mail explained why the survey was being conducted, how the survey information would be used, and why participation was important. Throughout the administration period, additional e-mail and postal reminders were sent to encourage survey participation. The survey was administered via the Web. Data were collected between September 17, 2012 and November 9, 2012.

Single-stage, nonproportional stratified random sampling³ procedures were used. The sample consisted of 108,478 individuals drawn from the sample frame constructed from *DMDC's ADMF*. Members of the sample became ineligible if they indicated in the survey or by other contact (e.g., telephone calls to the data collection contractor) that they were not on active duty as of the first day of the survey, September 17, 2012 (0.28% of sample).

Completed surveys (defined as 50% or more of the survey questions asked of all participants are answered, including a valid response on the critical question Q32) were received from 22,792 eligible respondents. The overall weighted response rate for eligibles, corrected for nonproportional sampling, was 24% (male 23%, female 29%).

Data were weighted using the industry standard three-stage process. This form of weighting produces survey estimates of population totals, proportions, and means (as well as other statistics) that are representative of their respective populations. Unweighted survey data, in contrast, are likely to produce biased estimates of population statistics. The three-stage process of weighting consists of the following steps:

- Adjustment for selection probability—Probability samples such as the sample for this survey are selected from lists and each member of the list has a known nonzero probability of selection. For example, if a list contained 10,000 members in a demographic subgroup and the desired sample size for the subgroup was 1,000, one in every tenth member of the list would be selected. During weighting, this selection probability (1/10) is taken into account. The base, or first weight, used to adjust the sample is the reciprocal of the selection probability. In this example, the adjustment for selection probability (base weight) is 10 for members of this subgroup.
- Adjustments for nonresponse—Some sampled members do not respond to the survey. Continuing the previous example, suppose only half of sample members, 500, completed and returned a survey. Because the unweighted sample size would only be 500, weights are needed to project the sample up to the subgroup population total (10,000). In this case, the base-weighted respondents would sum to only 5,000 weighted respondents. To adjust for nonresponse, the base weights are multiplied by the reciprocal of the nonresponse rate. In this example, the base weight (10) is multiplied by the reciprocal of the nonresponse rate (2) to create a new weight of 20. The weighted sample sums to the subgroup population total of 10,000.
- Adjustment to known population values—The first of the two previous
 weighting adjustments are applied according to the demographic groupings
 used in designing the subgroups for the sample. The second is based on
 population characteristics that are known to be related to whether a sample

³ In stratified random sampling, all members of a population are categorized into homogeneous groups. For example, members might be grouped by gender and component (e.g., all male Amy personnel in one group, all female Army personnel in another). Members are chosen at random within each group. Small groups are oversampled in comparison to their proportion of the population so there will be enough responses from small groups to analyze. Weights are used so that groups are correctly represented in the analyses.

person responds to the survey. Because the sample design and adjustments for nonresponse cannot take into account all demographic differences related to who responds to a survey and how they respond, auxiliary information is used to increase the precision of survey estimates. For this reason a final weighting adjustment is computed that reproduces population totals for important demographic groupings related to who responds to a survey and how they might answer the survey. Suppose in our example the population for the subgroup was 8,500 men and 1,500 women but the nonresponse-adjusted weighted estimates from the respondents was 7,000 men and 3,000 women. To reduce this possible bias and reproduce known population totals, the weights would be adjusted by 1.21 for men and 0.5 for women, which would give unbiased estimates of the total and of women and men in the subgroup.

Table 1 (pages 6-7) shows the number of respondents and the portion of total members in each reporting category. Also shown are the estimated number of members and the portion of total members in each reporting category. Differences in the percentages of respondents and population for the reporting categories reflect differences in the number sampled, as well as differences in response rates.

Table 1.

Number of Respondents (Total) and Estimated Population by Reporting Categories

		Respondents			Estimated Population				
	Count		Percent	Tota			Percent	Max	
TOTAL	22,792	100%		1,354,883	±7,667	100%		ME

Tabulation Procedures

Tabulations⁴ for each question in the survey are shown on a set of facing pages. The text of the questions and response options are shown at the top of the even-numbered pages with only the question number and question text repeated on the odd-numbered pages. To compress the width of columns in the tables, the response options are shown with a number or letter, then that number or letter is used as the column heading for the responses. The central feature of the tabulations is the percentage of members choosing the response options indicated by the column heading. Within a set of response options, percentages may not add to 100% due to rounding error.

Where an item can be presented as an average, that average is shown as a number estimate and a bar chart. The averages can be quickly scanned for reporting groups differing from other similarly defined groups. Where a true response continuum is available (e.g., number of times trained), the mean of that continuum is presented; in other cases, the responses are averages of the numeric scales presented with the response options. Where there is a simple binomial response (e.g., yes/no), only one percentage is presented. In this case, the bar chart represents that percentage. When multi-level response scales (e.g., "yes," "no," "don't know") can be dichotomized, the bar chart represents either the sum of the percentages in multiple columns (e.g., "no" and "don't know" summed) or the percentage in one column (e.g., "yes").

On each page of tabulations, the first column lists the reporting group shown in that row. The second column, *Percent Responding*, lists the portion of the reporting group represented in the estimates in that row. In most cases, if this percentage is not 100, it reflects item nonresponse, and the table note indicates that "Percent responding are members who answered the question."

Not all questions will apply to every respondent. Where possible, the survey is programmed to skip respondents over questions that do not apply to them. For example, Q85 (How did you hear about the DoD Safe Helpline?) does not apply to those who indicated they were not aware of the DoD Safe Helpline in Q84. The footnote for this question indicates, "Percent responding are active duty members who answered the question and who were aware of the DoD Safe Helpline (Q84)."

Because the survey contains open-ended questions, not all responses are tabulated. For example, Q30sp asked members to specify other unwanted gender-related behaviors they experienced during the 12 months prior to taking the survey. Since it is not feasible to tabulate the wide range of responses, the open-ended responses are not tabulated.⁵

⁴ Details of data editing and preparation are provided by DMDC (2012a).

⁵ Questions 49-51, 57-58, and 61-67 are not tabulated because they are open-ended items.

Combining Information From Multiple Items

Tabulations in this volume generally present data for individual survey questions. There are four types of exceptions. The first type of exception is where the results for multiple items are presented on a single set of pages.

• In Q83a-c, members were asked whether they were aware of the "My Strength is for Defending" campaign, the Sexual Assault Prevention Web site (www.myduty.mil), and their installation's Sexual Assault Awareness Month programs. The tabulations for this question show percentages who answered Yes to Q82a, Q82b, and Q82c, respectively, on one set of pages, to allow comparison between the percentages.

The second exception pertains to combining response options from a single item to present an aggregate number.

• In Q83, the bar chart shows the total percentage of those who indicated they were aware of any of the sexual assault prevention awareness resources (e.g., the campaign, the Web site, and their installation's programs).

The third exception is where members can provide multiple answers to a single question (e.g., race).

• In Q4, members are asked to mark one or more races. The tabulations show the percentage who responded that they were White, Black, American Indian/Alaska Native, Asian, and/or Native Hawaiian/Other Pacific Islander. Respondents who indicated more than one race are also shown in the percentage of More than one race. For example, if a respondent indicated they were Asian and White, they were counted in the percentage as Asian, White, and More than one race.

The fourth exception pertains to constructed composite measures (e.g., scales, indices and summary variables) described below. The composite measures included in the *2012 WGRA* have been used on the:

- 2005 Workplace and Equal Opportunity Survey of Active Duty Members (2005 WEOA)
- 2006 Workplace and Gender Relations Survey of Active Duty Members (2006 WGRA)
- 2007 Workplace and Equal Opportunity Survey of Reserve Component Members (2007 WEOR)
- 2008 Workplace and Gender Relations Survey of Reserve Component Members (2008 WGRA)

- 2009 Workplace and Equal Opportunity Survey of Active Duty Members (2009 WEOA)
- 2010 Workplace and Gender Relations Survey of Active Duty Members (2010 WGRA)
- 2011 Workplace and Equal Opportunity Survey of Reserve Component Members (2011 WEOR)
- 2012 Workplace and Gender Relations Survey of Reserve Component Members. (2012 WGRR)

For additional information on the history of the scales included in this Tabulation Volume, please see Ormerod et al (2010).

Individual items in each measure are presented first followed by tabulation pages showing composite measure results. Where applicable, Cronbach's coefficient alpha, a measure of scale reliability, is provided for the scale overall and by gender in the table notes. Cronbach's coefficient alpha ranges from 0 to 1. Values of 0.70 or greater indicate high reliability, meaning that the items are internally consistent.

- Supervisor Satisfaction: The composite measure includes survey items on members' agreement that their supervisor can be trusted, treat all assigned people fairly, have very little conflict with people who report to them, evaluate performance fairly, make work assignments fairly, and give satisfactory direction (Q11). Scale ranges from 1-5. Higher scores on this measure indicate members more strongly agreed with positive statements about their supervisors (i.e., were more satisfied).⁶
- Leadership Satisfaction: The composite measure includes items pertaining
 to members' satisfaction with their leadership's commitment to quality work,
 positive work environment, and Service member well-being (Q12b-d, f). For
 the purposes of this report, Q12b, d, and f were reverse-coded. Higher
 scores on this measure indicate members have higher degrees of
 satisfaction.⁷
- Careerism: The composite measure includes survey items pertaining to the
 extent to which a member perceives that leaders put their personal interests
 above the organization's interests to further personal advancement (Q12a-d,
 f). For the purposes of this report, Q12a and c were reverse-coded. Higher

⁶ This scale was used on 2005 WEOA, 2006 WGRA, 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, 2011 WEOR, and 2012 WGRR. A similar scale has been useful in research with military members (e.g., Hay & Elig, 1999; Sims, Drasgow, & Fitzgerald, 2005).

⁷ This scale was used on 2005 WEOA, 2006 WGRA, 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, 2011 WEOR, and 2012 WGRR.

scores indicate members have greater perceptions that their leaders exhibit careerism.⁸

- Coworker Satisfaction: The composite measure includes survey items on members' agreement with statements about the amount of conflict among coworkers, coworker work efforts, work group compatibility, helpfulness of coworkers, and relationships with coworkers (Q13). Scale ranges from 1-5. Higher scores on this measure indicate members more strongly agreed with positive statements about their coworkers (i.e., were more satisfied).⁹
- Work Satisfaction: The composite measure includes survey items on sense
 of pride, use of skills, work enjoyment, and the opportunity to acquire
 valuable skills (Q14a-d). Scale ranges from 1-5. Higher scores on this
 measure indicate members strongly agreed with positive statements about
 their work.¹⁰
- Workplace Hostility: The composite measure includes survey items on the
 degree to which coworkers or supervisors act in an angry or hostile manner
 toward them (Q19). Examples include intentionally interfering with other's
 work performance, taking credit for other's work or ideas, and using insults,
 sarcasm, or gestures to humiliate others. Response options ranges from 1
 (never) to 5 (very often). Higher scores on this measure indicate members
 more frequently perceived hostile behaviors in their workplace.¹¹
- General Health: The General Health scale is designed to provide a self-assessment of overall physical well-being. The four scale items (Q20a-d) were taken from the general health perceptions subscale on the Short-Form Health Survey (SF-36) of the Medical Outcomes Study questionnaire (Ware & Sherborne, 1992). For the purposes of this report, Q20b and c were reverse-coded. Higher scores on this measure indicate members have more positive perceptions of their health.¹²
- Perceived Stress: To evaluate personal stress levels, members were asked about their emotional experiences/reactions in the month prior to taking the survey (Q22). The measure of perceived stress is a 10-item version of the Perceived Stress Scale[®] (Cohen, Kamarck, & Mermelstein, 1983; Cohen & Williamson, 1988). Items were scored 0 to 4. For the purposes of this report, Q22d, e, g, and h were reverse-coded. Scores are reported as a

⁸ This scale was used on 2005 WEOA, 2006 WGRA, 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, 2011 WEOR, and 2012 WGRR.

⁹ This scale was used on 2005 WEOA, 2006 WGRA, 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, 2011 WEOR, and 2012 WGRR.

¹⁰ One item, 43e "You are satisfied with your job as a whole," was excluded from this scale. This scale was used on 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, 2011 WEOR, and 2012 WGRR.

¹¹ This scale was used on 2010 WGRA, 2011 WEOR, and 2012 WGRR.

¹² This scale was used on 2005 WEOA, 2006 WGRA, 2007 WEOR, 2008 WGRR, 2009 WEOA, 2010 WGRA, and 2012 WGRR.

- single figure, which is the sum of the individual scores (range 0 to 40). Higher scores on this measure indicate greater perceived stress.¹³
- Posttraumatic Stress Disorder (PTSD): PTSD is a type of anxiety disorder that can be triggered by experiencing or witnessing a traumatic event that causes fear, helplessness, or horror and is characterized by persistent frightening thoughts and memories, emotional detachment or numbness, sleep problems, and a tendency to be easily startled. The PTSD Check List (PCL), a 17-item screening tool, was used to provide information regarding the relative severity of PTSD symptoms that individuals experienced (Q23) over the past month. Response options were coded from 1 (not at all) to 5 (extremely). Scores on all items were summed to create a total score that ranged between 17 and 85. Traditionally, a score of 50 on the PCL is considered to be a reliable cutoff suggesting that further evaluation for PTSD would be beneficial (Weathers et al., 1993). Higher scores on this measure indicate greater experiences of PTSD symptoms.¹⁴
- Depression Scale: Depression is a common mental disorder characterized by depressed mood, loss of interest or pleasure, feelings of guilt or low selfworth, disturbed sleep or appetite, low energy, and poor concentration. The first eight questions from the Patient Health Questionnaire (PHQ-9) Depression Scale (Spitzer, Kroenke, & Williams, 1999) were used to measure the presence of depression related thoughts and behaviors (Q24). The PHQ-9 is a unidimensional measure used for diagnosing depression and assessing its severity (Kroenke, Spitzer, & Williams, 2001). Scores range from 1 to 4. Higher scores on this measure indicate higher levels of depression.¹⁵
- Overview of Composite Measures of 2012 Incident Rates of Gender-Related Harassment and Discrimination Experienced by Members: Incident rates, constructed from 30 items, reflect whether members indicated they experienced gender-related insensitivity, coercion, harassment, or discrimination. The 2012 WGRA incident rates comprise the percentage of members who indicated experiencing at least one of the behaviors during the 12 months prior to the survey.
- Sex Discrimination: To assess perceptions of discrimination in the workplace, members were asked to indicate if they had recently experienced any of the 12 behaviors or situations where they thought gender was a

¹³ This scale was used on *2005 WEOA*, *2006 WGRA*, *2007 WEOR*, *2008 WGRR*, *2009 WEOA*, *2010 WGRA*, *2011 WEOR*, and *2012 WGRR*.

¹⁴ Respondents are presented with the 17 diagnostic symptoms of PTSD as described in the Diagnostic and Statistical Manual of Mental Disorders (4th ed., DSM-IV; American Psychiatric Association, 1994). This scale has been used on *2009 WEOA*, *2010 WGRA*, and *2012 WGRR*.

¹⁵ One item, "Thoughts that you would be better off dead, or of hurting yourself in some way," on the PHQ-9 Depression Scale was excluded from this survey. This scale has been used on *2009 WEOA*, *2010 WGRA*, *2011 WEOR*, and *2012 WGRR*.

motivating factor (Q27). The items form three incident rates: Evaluation (Q27a-d), Assignment (Q27e-g, I), and Career (Q27h-k). In order to be counted as having experienced Evaluation, Assignment, or Career discrimination, respondents must have indicated that gender was a factor in their experience of at least one of the behaviors in the scale (Q27). In addition to the tabulation of incident rates of the three types of discrimination, a summary variable Sex Discrimination, is also tabulated. In order to be counted as having experienced Sex Discrimination, respondents must have indicated experiencing one of the 12 behaviors where gender was a factor AND they must have indicated that they considered at least some of the behaviors experienced to have been sex discrimination (Q29a).¹⁶

- Unwanted, Gender-Related Behavior: Incident rates of unwanted, genderrelated behaviors were derived from 19 behaviors items (Q30) and represent a continuum of behaviors. The categories of behaviors and corresponding items are as follows: Crude/Offensive Behavior (Q30a, c, ef), Unwanted Sexual Attention (Q30h, j, m-n), Sexual Coercion (Q30k-l, o-p), and Sexist Behavior (Q30b, d, g, i). Sexist Behavior includes verbal/nonverbal behaviors that convey insulting, offensive, and condescending attitudes based on the respondent's sex. Crude/Offensive Behavior includes verbal/nonverbal behaviors of a sexual nature that are offensive or embarrassing. Unwanted Sexual Attention includes attempts to establish a sexual relationship or engage in sexually suggestive behavior. Sexual Coercion reflects classic guid pro guo instances of job benefits or losses conditioned on sexual cooperation. Respondents were asked to indicate how often they had been in situations involving these behaviors, ranging from Never to Very often where a higher score denotes more frequent experiences of unwanted gender-related behavior. Items are derived from the Sexual Experiences Questionnaire (SEQ; Fitzgerald, et al., 1988; Fitzgerald, Gelfand, & Drasgow, 1995). Incident rates indicate whether the individual reported experiencing at least one of the behaviors in a category (e.g., Sexual Coercion) at least once in the 12 months before responding to the survey. 18
- Sexual Harassment: The prevalence of sexual harassment is determined using a two-step process. In order to be counted as having experienced Sexual Harassment, respondents must have indicated they experienced one

¹⁶ This scale was used on 2006 WGRA, 2008 WGRR, and 2010 WGRA.

¹⁷ Items 56a-r ask about specific behaviors and Q56s asks about "Other unwanted gender-related behavior." Q56s is not included in scales or analyses. This scale was used on 2006 WGRA, 2008 WGRR, 2010 WGRA, and 2012 WGRR.

¹⁸ The SEQ is a widely used instrument containing multiple items assessing participants' experiences of sexual harassment and other unwanted gender-related behavior. Sexist Behavior and Sexual Assault are not counted in the DoD survey measure of sexual harassment) and the labeling of those behaviors as sexual harassment (Survey Method for Counting Incidents of Sexual Harassment, 2002). These measures was used on *2006 WGRA*, *2008 WGRR*, and *2010 WGRA*.

of the following types of unwanted gender-related behaviors: Crude/Offensive Behavior, Unwanted Sexual Attention, or Sexual Coercion during the 12 months prior to completion of the survey (Q30) AND they must have indicated that they considered at least one of the behaviors experienced to have been sexual harassment (Q31). In Q31, survey participants were asked whether they considered any of the behaviors they endorsed in Q30 to have been sexual harassment. Response options included 1 (none were sexual harassment), 2 (some were sexual harassment; some were not sexual harassment), and 3 (all were sexual harassment).

- Unwanted Sexual Contact: Respondents were counted as having experienced unwanted sexual contact if they indicated Yes to Q32.
- Most Serious Unwanted Sexual Contact Behavior Experienced: This combination of unwanted sexual contact behavior experienced during the one event were determined by responses to Q34. Respondents were counted in the Experienced unwanted sexual touching if they indicated experiencing sexual touching (without experiencing attempted or completed sexual intercourse, oral sex, anal sex, or penetration by a finger or object). Respondents were counted in the Experienced attempted sexual intercourse, anal, or oral sex if they indicated experiencing attempted sexual intercourse, oral sex, anal sex, or penetration by a finger or object (without experiencing completed sexual intercourse, oral sex, anal sex, or penetration by a finger or object). Respondents were counted in the Experienced completed sexual intercourse, anal, or oral sex if they indicated experiencing completed sexual intercourse, oral sex, anal sex, or penetration by a finger or object.

Margins of Error

The complex sample design required weighting to produce population estimates, (e.g., percent female).²⁰ Because of the weighting, conventional formulas for calculating the margin of error will overstate the reliability of the estimate. For this report, variance estimates were calculated using SUDAAN® PROC DESCRIPT, (Research Triangle Institute, Inc., 2004).

¹⁹ Survey measurement of sexual harassment is defined by the U.S. Department of Defense as the presence of behaviors indicative of sexual harassment (Crude/Offensive Behavior, Sexual Coercion, and Unwanted Sexual Attention; Sexist Behavior and Sexual Assault are not counted in the DoD survey measure of sexual harassment) and the labeling of those behaviors as sexual harassment (Survey Method for Counting Incidents of Sexual Harassment, 2002). This measure was used on *2006 WGRA*, *2008 WGRR*, *2010 WGRA*, and *2012 WGRR*.

²⁰ As a result of differential weighting, only certain statistical software procedures, such as SUDAAN, correctly calculate standard errors, variances, or tests of statistical significance for stratified samples.

[®] Registered 2004 by Research Triangle Institute, P.O. Box 12194, Research Triangle Park, NC 27709-2194.

By definition, sample surveys are subject to sampling error. Standard errors are estimates of the variance around population parameters (such as percentages or means) and are used to construct margins of error (i.e., confidence interval half-widths). Percentages and means in these tabulations are reported with margins of error based on 95% confidence intervals. In order to compress the data display, only the maximum margin of error (Max ME) for each reporting category is shown. That is, the tab volume shows only the largest margin of error for the percentages or means in each row. For each average shown in these tabulations, its margin of error is also printed.

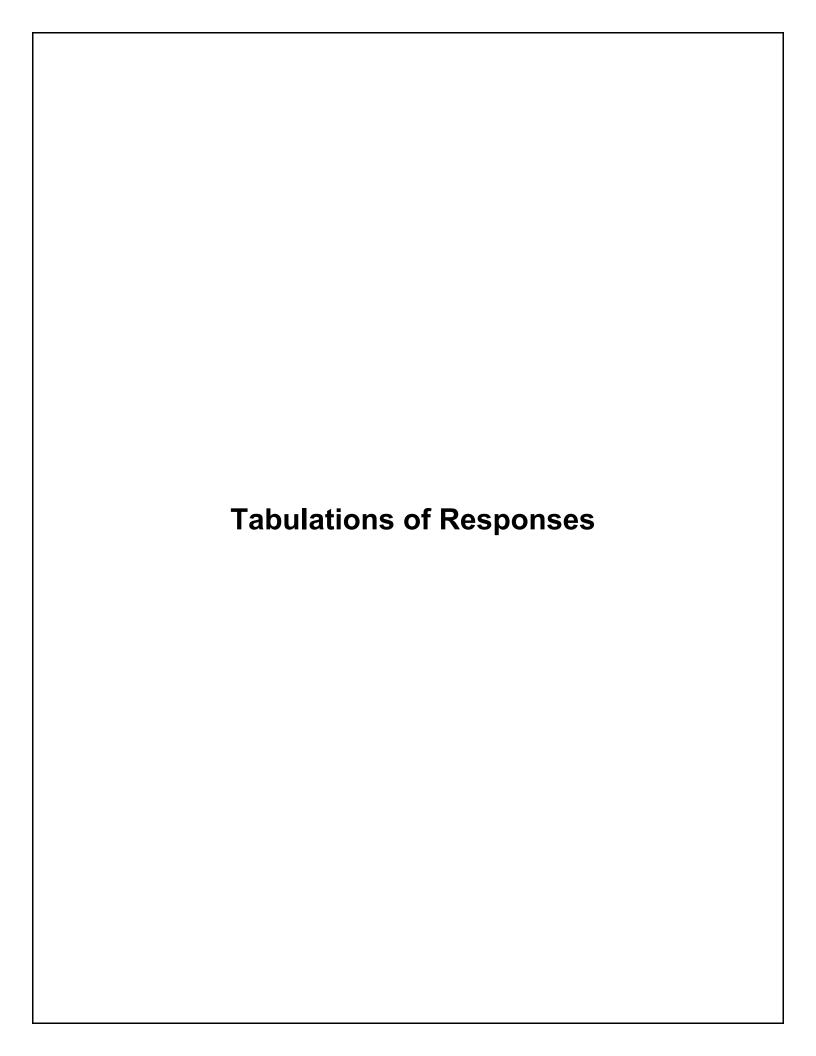

The following reporting conventions are used:

- "o" indicates that no one in any reporting group selected the response option,
- NR indicates the estimate is *Not Reportable* and is suppressed because of low reliability. Estimates of low reliability are suppressed based on criteria defined in terms of nominal sample size (less than 5), effective sample size (less than 15), or relative standard error (greater than 0.225),
- NA indicates the question was Not Applicable because the question did not apply to respondents in the reporting category based on answers to previous questions,
- no Max ME is printed when all percentages in the row are shown as NR,
- no margin of error is printed for an average when it is shown as NR.

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate members more strongly agreed with positive statements about their supervisor. The overall Cronbach's coefficient alpha = 0.97 (males = 0.96 and females = 0.97).

11. Supervisor Satisfaction scale: Constructed from Q11. Supervisor Satisfaction assesses the level of agreement that supervisors are trustworthy, equitable, and fair in evaluations and delegating assignments.

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate members more strongly agreed with positive statements about their supervisor. The overall Cronbach's coefficient alpha = 0.97 (males = 0.96 and females = 0.97).

a. If you make a request through channels in your work group, you know somebody will listen.

1. Strongly disagree

2. Disagree

3. Neither agree nor disagree

4. Agree 5. Strongly agree

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate members more strongly agreed their leaders exhibit careerism. The overall Cronbach's coefficient alpha = 0.83 (males = 0.82 and females = 0.85).

12. Careerism scale: Constructed from Q12a-d, f. Careerism can be defined as the extent to which a member perceives that leaders put their personal interests above the organization's interests to further personal advancement.

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate higher levels of satisfaction with their work. The overall Cronbach's coefficient alpha = 0.93 (males = 0.93 and females = 0.93).

14. Work Satisfaction scale: Constructed from Q14a-e. Work Satisfaction can be defined as a sense of pride in work, use of skills, work enjoyment, and the opportunity to acquire valuable skills.

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate greater frequency of hostile workplace behaviors. The overall Cronbach's coefficient alpha = 0.91 (males = 0.91 and females = 0.91).

19. Workplace Hostility scale: Constructed from Q19. Workplace Hostility can be defined as the degree to which people in the workplace act in an angry or hostile manner toward personnel.

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 5. Higher scores indicate greater frequency of hostile workplace behaviors. The overall Cronbach's coefficient alpha = 0.91 (males = 0.91 and females = 0.91).

a. I am as healthy as anybody I know.

Note Percent reconding are active duty members who answered the question. The scale ranges from 1 to	. ,					

Note. Percent responding are active duty members who answered the question. The scale ranges from 1 to 4. Higher scores indicate more positive perceptions of health. The overall Cronbach's coefficient alpha = 0.79 (males = 0.77 and females = 0.80).

20. General Health scale: Constructed from Q20. The General Health scale is designed to provide a self-assessment of overall physical well-being.

Note. Percent responding are active duty members who answered the question. The scale ranges from 17 to 85. A score of 50 or higher on the PTSD Checklist is considered indicative of probable PTSD diagnosis. The overall Cronbach's coefficient alpha = 0.96 (males = 0.96 and females = 0.96).

23. Posttraumatic Stress Disorder (PTSD) score: Constructed from Q23. PTSD is a type of trauma and stress-related disorder that can be triggered by experiencing or witnessing a traumatic event that causes fear, helplessness, or horror and is characterized by persistent frightening thoughts and memories, emotional detachment or numbness, sleep problems, and a tendency to be easily startled.

27. During the past 12 months, did any of the following happen to you? If it did, do you believe your gender was a factor?

i. You did not learn until it was too late of opportunities that would have helped your military career.

1. Yes, and your gender was a factor

2. Yes, but your gender was NOT a factor

3. No, or does not apply

Note. Percent responding are active duty members who answered the questions. This item is constructed from Q27I and Q28. Combining these items enables differentiation between not receiving an assignment when the assignment was legally open to women and when it was not.

27. During the past 12 months, did any of the following happen to you? If it did, do you believe your gender was a factor? Constructed from Q27I and Q28.

I. You did not get a military job assignment that you wanted and for which you were qualified.

Note. Percent responding are active duty member					n incident rate indic

Note. Percent responding are active duty members who answered the question. Evaluation incident rate indicates the percentage of members who experienced at least one of the behaviors during the 12 months before responding to the survey and who indicated their gender was a factor. The overall Cronbach's coefficient alpha = 0.72 (males = 0.67 and females = 0.72).

27. Evaluation incident rate: Constructed from Q27a-d. Evaluation incident can be defined as Service members' belief that gender was a factor in others' judgments about their performance (e.g., evaluations or awards).

Note. Percent responding are active duty members who answered the question. Evaluation incident rate indicates the percentage of members who experienced at least one of the behaviors during the 12 months before responding to the survey and who indicated their gender was a factor. The overall Cronbach's coefficient alpha = 0.72 (males = 0.67 and females = 0.72).

27. Assignment incident rate: Constructed from Q27e-g, I. Assignment incident can be defined as Service members' perception that because of their gender they did not get assignments they wanted or ones that used their skills or facilitated career advancement.

Note. Percent responding are active duty members who answered the question. Sex Discrimination incident rate indicates the percentage of members who experienced Evaluation, Assignment, or Career discriminatory behaviors in the 12 months before responding to the survey (Q27) and who indicated they considered at least some of the behaviors experienced to be sex discrimination (Q29a). The overall Cronbach's coefficient alpha without the inclusion of Q29a = 0.86 (males = 0.85 and females = 0.85).

29. Sex Discrimination incident rate: Constructed from Q27 and 29a. Sex Discrimination comprises three types of potentially discriminatory behaviors: discrimination in evaluations, career development, and assignments.

Note Percent responding are active duty memb			·		a a vaia minaida mt vat

Note. Percent responding are active duty members who answered the question. Sexual Coercion incident rate indicates the percentage of members who experienced at least one of the Sexual Coercion behaviors in the 12 months before responding to the survey. The overall Cronbach's coefficient alpha = 0.92 (males = 0.98 and females = 0.90).

30. Sexist Behavior incident rate: Constructed from Q30b, d, g and i. Sexist Behavior can be defined as verbal and nonverbal behaviors that convey insulting, offensive, or condescending attitudes based on gender of the member.

Note. Percent responding are active duty members who answered the question and who experienced unwanted sexual contact (Q32). Members who did not indicate what behavior they experienced (Q34) are coded as "Did not specify."

NR: Not reportable NA: Not applicable

35. Did the situation occur...

- a. At a military installation?
- d. While you were deployed to a combat zone or to an area where you drew imminent danger pay or hostile fire pay?
- g. During any type of military combat training
- b. During your work day/duty hours?
- e. During the delayed entry program?
- h. During Officer Candidate or Training School/Basic or Advanced Officer

Course?

- c. While you were on TDY/TAD, at sea, or during field exercises/alerts?
- f. During recruit training/basic training?
- During military occupational specialty school/technical training/advanced individual training/professional military education?

72. What were your reasons for not reporting the situation to any of the installation/Service/DoD authorities or organizations? {Subitems I-p}

p. Other

- I. You did not think your report would be kept confidential.
- m. You feared you or others would be punished for infractions/violations, such as underage drinking or fraternization.
- n. You were afraid of being assaulted again by the offender.

o. You thought you might lose your security clearance/personnel reliability

77. You indicated you would not encourage someone to report a sexual assault. What are your reasons? {Subitems a-f}

- a. You don't think anything would be done.
- d. You think reporting would take too much time/effort.
- b. You have heard of negative experiences other victims went through who reported their situation.
- e. You think there would be reprisals from the offender(s) or their friends.
- c. You think the victim wouldn't be believed.
- You think the victim's performance evaluation or chances for promotion would suffer.

NA: Not applicable

77. You indicated you would not encourage someone to report a sexual assault. What are your reasons? {Subitems g-I}

- g. You think the victim would be labeled a troublemaker.
- h. You think the report wouldn't be kept confidential.
- You fear individuals other than the offender would be punished for infractions/violations, such as underage drinking or fraternization.

- You think the victim would lose their security clearance/personnel reliability certification.
- k. You think the victim's career would be affected (e.g., change of station/ assignment).

- 87. Suppose you see a Service member, who you do not know very well, getting drunk at a party. Someone tells you that one of your coworkers is going to lead that Service member off to have sex. What are you most likely to do in this kind of situation?
 - 1. Nothing

- 2. Leave to avoid any kind of trouble
- 3. Find someone who knows the Service member and can help them

- 4. Talk to the Service member/try to get them out of the situation
- 5. Stop your coworker from leaving with the Service member

88. Which reason below best explains your reaction to the situation in the previous question?

- 1. I don't see this situation as a problem.
- 4. I wouldn't want to become the focus of my coworker's attention.
- I don't believe the Service member would listen to me if they do not know me very well.
- 10. Other reason

- 2. It's none of my business.
- 5. Nothing I could do or say would make a difference.
- 8. The Service member should not have gotten into this situation in the first place.
- 3. I could be picked on or made fun of.
- 6. It is hard to reason with someone who has been drinking.
- People put themselves into this type of situation because they want to drink and have sex.

- You have reached the redirect page for Department of Defense Human Resources Strategic
 Assessment Program (HRSAP) surveys. You will be redirected to our contractor's web site
 (a secure .com site run by Data Recognition Corporation) to participate in the survey.
- DMDC has set up a telephone line for anyone who wishes to verify the survey's legitimacy.
 Call DSN 372-1034 from any DoD or other government telephone with DSN for a list of current DMDC surveys. If you do not have access to a DSN telephone line, call 1-571-372-1034. The prerecorded list does not include surveys conducted by agencies other than DMDC.
- Please enter your Ticket Number below, then click the Continue button to access your survey.

Human Relations Surveys

2012 Workplace and Gender Relations Survey of Active Duty Members

Welcome

Security Protection Advisory

RCS# DD-P&R(QD)1947 Exp. 12/31/2013

You have been selected to take a survey about your workplace and gender experiences over the past year. Verify and/or update your postal and e-mail address click here. When you click Continue, you will be asked to:

- Create a Personal Identification Number (PIN)
- · Read the Privacy Act and Informed Consent Statement
- · Take the survey

Thank you for your time and participation.

Continue

Frequently Asked Questions / How to Contact Us

PRIVACY ACT STATEMENT & INFORMED CONSENT INFORMATION

In accordance with the Privacy Act, this notice informs you of the purpose of the survey and how the findings of these surveys will be used. It also provides information about the Privacy Act and about informed consent. Please read it carefully.

AUTHORITY: 10 USC Sections 136, 1782, and 2358.

PRINCIPAL PURPOSE: Information collected in this survey will be used to research attitudes and perceptions about gender-related issues, estimate the level of sexual harassment and unwanted sexual contact, and identify areas where improvements are needed. This information will assist in the formulation of policies which may be needed to improve the working environment. Reports will be provided to the Department of Defense (DoD), Department of Homeland Security (DHS), each Military Department, and the Joint Chiefs of Staff. Findings will be used in reports and testimony provided to Congress. Some findings may be published by the Defense Manpower Data Center (DMDC) or in professional journals, or presented at conferences, symposia, and scientific meetings. Data could be used in future research. Datasets without any identifying information may be analyzed by researchers outside of DMDC. Briefings and reports on results from these surveys will be posted on the Web: http://www.dmdc.osd.mil/surveys/

ROUTINE USES: None.

DISCLOSURE: Providing information on this survey is voluntary. Most people can complete the survey 16-30 minutes. There is no penalty or loss of benefits to which you are entitled if you choose not to respond. However, maximum participation is encouraged so that the data will be complete and representative. Your survey responses will be treated as confidential. Identifying information will be used only by government and contractor staff engaged in, and for purposes of, the survey research. For example, the research oversight office of the Office of the Under Secretary of Defense (Personnel and Readiness) and representatives of the U.S. Army Medical Research and Materiel Command are eligible to review research records as a part of their responsibility to protect human subjects in research. This survey is being conducted for research purposes. In no case will individual identifiable survey responses be reported. If you answer any items and indicate distress or being upset, etc., you will not be contacted for follow-up purposes. However, if you indicate a direct threat to harm yourself or others within responses or communications about the survey, because of concern for your welfare, DMDC may notify an office in your area for appropriate action.

SURVEY ELIGIBILITY AND POTENTIAL BENEFITS: DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (for example, Service, gender). This is your chance to be heard on issues that directly affect you, including activation/deployment experience, retention, and reunion and reintegration support. While there is no direct benefit for your individual participation, your responses on this survey *make a difference*.

STATEMENT OF RISK: The data collection procedures are not expected to involve any risk or discomfort to you. The only risk to you is accidental or unintentional disclosure of the data you provide. However, the government and its contractors have a number of policies and procedures to ensure that survey data are safe and protected. For example, no identifying information (name, address, Social Security Number) is ever stored in the same file as survey responses. Survey data may be shared with organizations doing research on DoD personnel but only after minimizing detailed demographic data (for example, paygrade and detailed location information) that could possibly be used to identify an individual. A confidentiality analysis is performed to reduce the risk of there being a combination of demographic variables that can single out an individual. Government and contractor staff members have been trained to protect client identity and are subject to civil penalties for violating your confidentiality.

A respondent who experienced sexual harassment or unwanted sexual contact may experience discomfort and/or other emotions while completing the survey. Contact information is provided below for those who experience such discomfort.

- If you are a victim of sexual assault, or a person who wishes to prevent or respond to this crime, you may want to contact a Sexual Assault Response Coordinator (SARC) or Victim Advocate (VA).
 - To reach Military OneSource 24/7 for restricted/unrestricted reporting and established DoD Sexual Assault Services, call a hotline number:

Stateside: 1-800-342-9647

Overseas: 00-800-3429-6477 or call collect 1-484-530-5908 Worldwide: http://www.militaryonesource.com/ or www.sapr.mil/

 Coast Guard members may want to call Employee Assistance Program Counseling Services (1-800-222-0364)

- If you are a victim of sexual harassment, or a person who wishes to prevent or respond to it, you may want to contact your Service's local sexual harassment or equal opportunity office.
 - To reach a hotline for your Service call:

Army: 1-800-267-9964 Marine Corps: 703-784-9371 Navy: 1-800-253-0931 Air Force: 1-800-616-3775

Coast Guard: 1-800-222-0364

There are other types of helping professionals you can contact as well: Overseas members can contact Military OneSource by calling 800-3429-6477 (Dial country access code; do not dial "1"). You can also contact the counseling hotline: 1-800-784-2433 (1-800-SUICIDE: an anonymous, civilian hotline).

If you experience any difficulties taking the survey, please contact the Survey Processing Center by sending an e-mail to <a href="https://www.wc.ncenter.org/wc.ncenter.or

Once you start answering the survey, if you desire to withdraw your answers, please notify the Survey Processing Center prior to November 9, 2012. Please include in the e-mail or phone message your name, Ticket Number, and the PIN that you selected when you started this survey. Unless withdrawn, partially completed survey data may be used after that date.

Click Continue if you agree to do the survey.

HOW TO CONTACT US

If you have questions or concerns about this survey, you have three ways to contact the Survey Operations Center:

Call: 1-800-881-5307

• E-mail: WGRSurvey@osd.pentagon.mil

• **Fax**: 1-763-268-3002

FREQUENTLY ASKED QUESTIONS

What is Defense Manpower Data Center (DMDC)?

 DMDC maintains the largest archive of personnel, manpower, training, and financial data in Department of Defense (DoD). DMDC also conducts Joint-Service surveys including the Status of Forces Surveys, QuickCompass, and Human Relations Surveys for the Department of Defense. To learn more, visit the DMDC Web site.

http://www.dmdc.osd.mil/

What is the Human Relations Survey Program?

- Human Relations Survey is a DoD personnel program that features Web-based surveys sponsored by the Under Secretary of Defense for Personnel and Readiness (USD[P&R]).
- These surveys enable the DoD to regularly assess the attitudes and opinions of the DoD community—active duty and Reserve component members, and DoD civilian employees—on the full range of personnel issues.

How do I know this is an official, approved DoD survey?

 In accordance with <u>DoD Instruction 8910.01</u>, all data collection in the Department must be licensed and show that license as a Report Control Symbol (RCS) with an expiration date. The RCS for this survey is RCS# DD-P&R(QD)1947, expiring 12/31/2013.

How did you pick me?

• DMDC uses well-established, scientific procedures to randomly select a sample that represents the Defense community based on combinations of demographic characteristics (e.g., Service, gender).

Why should I participate?

- This is your chance to be heard on issues that directly affect you, including policies and practices regarding general workplace respect issues as well as sexual assault, sexual harassment, and other gender-related issues.
- Your responses on this survey make a difference.

What is WGRSurvey@osd.pentagon.mil?

• The official e-mail address for communicating with active duty members about Human Relations Survey surveys. "WGRSurvey" is short for Workplace & Gender Relations.

Why am I being asked to use the Web?

Web administration enables us to get survey results to senior Defense leaders faster.

Why are you using a .net instead of a .mil domain to field your survey?

The survey is administered by our contractor, Data Recognition Corporation, an experienced survey operations
company. The survey collection tool starts on a .mil site within DMDC. Once you enter your Ticket Number, you are
redirected to a contractor site which uses a .net domain. This allows everyone to access the survey, even from a
non-government computer.

Do I have to answer all questions?

No, it is not necessary to answer every question. Within the survey screen, you have four control buttons: *Next Page* (=>), *Previous Page* (<=), *Clear Responses*, and *Save and Return Later*. Use these buttons to navigate through the survey or skip questions. Use *Save and Return Later* to give yourself flexibility to complete the survey at a convenient time. When you return to the survey Web site, enter your Ticket Number to get to the place in the survey where you had stopped.

Why does the survey ask personal questions?

- DMDC reports overall results, as well as by other characteristics, such as location, gender, etc. To complete these analyses, we must ask respondents for these types of demographic information.
- Analyzing results in this way provides Defense leaders with information about the attitudes and concerns of all subgroups of personnel so that no groups are overlooked.
- Sometimes sensitive questions are asked in order to improve personnel policies, programs, and practices. As with all questions on the surveys, your responses will be held in confidence.

Will my answers be kept private?

- Your privacy will be safeguarded in accordance with the Privacy Act of 1974 (Public Law 93-579)
- All data will be reported in the aggregate and no individual data will be reported.
- We encourage you to safeguard your Ticket Number to prevent unauthorized access to your survey. In addition, to
 ensure your privacy, be aware of the environment in which you take the survey (e.g., take the survey when no one
 else is home, take care to not leave the survey unattended).

Can I withdraw my answers once I have started the survey?

Will I ever see the results of the survey?

DMDC posts survey results on the following Web site:

http://www.dmdc.osd.mil/surveys/

	BACKGROUND INFORMATION	6.	[Ask if Any Q5 a-c = "Yes, and I am still deployed for this operation" OR Any Q5 a-c
1.	Were you on active duty on September 17, 2012?		"Yes, but I am no longer deployed for this operation"] In the past 12 months, have you been deployed to a combat zone or to an area where you drew imminent danger pay or hostile fire pay? Yes
2.	Are you? Male		No No
3.	 ✓ Female Are you Spanish/Hispanic/Latino? ✓ No, not Spanish/Hispanic/Latino ✓ Yes, Mexican, Mexican-American, Chicano, Puerto Rican, Cuban, or other Spanish/Hispanic/Latino 	7.	To what extent do/would you feel safe <u>during</u> <u>deployments</u> from being sexually assaulted on your base/installation/ship? Very safe Safe Neither safe nor unsafe Unsafe
4.	What is your race? <i>Mark one or more races to indicate what you consider yourself to be.</i>	_	✓ Very unsafe
	Black or African American American Indian or Alaska Native Asian (e.g., Asian Indian, Chinese, Filipino, Japanese, Korean, or Vietnamese) Native Hawaiian or other Pacific Islander (e.g., Samoan, Guamanian, or Chamorro)	8.	To what extent do/would you feel safe from being sexually assaulted on your home base/installation/ship ? Very safe Safe Neither safe nor unsafe Unsafe
	MILITARY LIFE		Very unsafe
5.	In the <u>past 12 months</u> , have you been deployed for any of the following operations? <i>Mark one</i>		YOUR MILITARY WORKPLACE
	Ask if Q5 c = "Yes"] Please specify the other operation(s) for which you were deployed in the past 12 months.	9.	Are you currently in a work environment where members of your gender are uncommon? Yes No What is the gender of your immediate supervisor? Male Female

11. How much do you agree or disagree with the following statements about your supervisor? *Mark one answer for each statement.*

			Stron	gly c	lisag	ree

- 87. Suppose you see a Service member, who you do not know very well, getting drunk at a party. Someone tells you that one of your coworkers is going to lead that Service member off to have sex. What are you most likely to do in this kind of situation? *Mark one*.
 - Nothing Nothing
 - Leave to avoid any kind of trouble
 - Find someone who knows the Service member and can help them
 - Talk to the Service member/try to get them out of the situation
 - Stop your coworker from leaving with the Service member
 - Other action

	the previous question? Mark one.					
	best explains your reaction to the situation in					
	avoid any kind of trouble"] Which reason below					
88.	[Ask if Q87 = "Nothing" OR Q87 = "Leave to					

I don't see this situation as a problem.

It's none of my business.

I could be picked on or made fun of.

I wouldn't want to become the focus of my coworker's attention.

Nothing I could do or say would make a difference.

It is hard to reason with someone who has been drinking.

I don't believe the Service member would listen to me if they do not know me very well.

The Service member should not have gotten into this situation in the first place.

People put themselves into this type of situation because they want to drink and have sex.

Other reason

[Ask if (Q87 = "Nothing" OR Q87 = "Leave to avoid any kind of trouble") AND Q88 = "Other reason"] What other reason best explains your reaction to the situation in the previous question?

PRIOR EXPERIENCES

- 89. Prior to your entry into the military, did you experience any of the following intentional sexual contacts that were against your will or occurred when you did not or could not consent where someone...
 - <u>Sexually touched you</u> (e.g., intentional touching of genitalia, breasts, or buttocks) or made you sexually touch them?
 - Attempted to make you have sexual intercourse, but was not successful?
 - Made you have sexual intercourse?
 - Attempted to make you perform or receive oral sex, anal sex, or penetration by a finger or object, but was not successful?
 - <u>Made</u> you perform or receive oral sex, anal sex, or penetration by a finger or object?

X Yes

X No

- 90. [Ask if Q32 = "No"] Since the date you first joined the military, have you ever experienced any of the following intentional sexual contacts that were against your will or occurred when you did not or could not consent where someone...
 - <u>Sexually touched you</u> (e.g., intentional touching of genitalia, breasts, or buttocks) or made you sexually touch them?
 - Attempted to make you have sexual intercourse, but was not successful?
 - Made you have sexual intercourse?
 - Attempted to make you perform or receive oral sex, anal sex, or penetration by a finger or object, but was not successful?
 - <u>Made</u> you perform or receive oral sex, anal sex, or penetration by a finger or object?

X Yes

No.

HOW ARE WE DOING?

91. In your opinion, has sexual assault in our nation become more or less of a problem over the last 4 years?

Less of a problem today

About the same as 4 years ago

More of a problem today

92. [Ask if "Years of Service" > 3] In your opinion, has sexual assault in the military become more or less of a problem over the last 4 years?

Less of a problem today

About the same as 4 years ago

More of a problem today

TAKING THE SURVEY

93. Thank you for participating in the survey. There are no more questions on this survey. If you have comments or concerns that you were not able to express in answering this survey, please enter them in the space provided. Your comments will be viewed and considered as policy deliberations take place. Any comments you make on this questionnaire will be kept confidential. However, if DMDC or its data collection contractor perceives comments as a direct threat to yourself or others, out of concern for your welfare, DMDC may contact an office in your area for appropriate action. Your feedback is useful and appreciated.

94. [Ask if Q1 = 'No, I separated or retired'] Based on your answer to the previous question, you are ineligible to take this survey. If you feel you have encountered this message in error, click the back arrow button and check your answer.

To submit your answers, click *Submit*. For further help, please call our Survey Processing Center toll-free at 1-800-881-5307, e-mail WGRSurvey@osd.pentagon.mil, or send a fax to 1-763-268-3002.

INSTRUCTIONS FOR COMPLETING SF 298

- 1. REPORT DATE. Full publication date, including day, month, if available. Must cite at least the year and be Year 2000 compliant, e.g. 30-06-1998; xx-06-1998; xx-xx-1998.
- **2. REPORT TYPE.** State the type of report, such as final, technical, interim, memorandum, master's thesis, progress, quarterly, research, special, group study, etc.
- 3. DATES COVERED. Indicate the time during which the work was performed and the report was written, e.g., Jun 1997 Jun 1998; 1-10 Jun 1996; May Nov 1998; Nov 1998.
- **4. TITLE.** Enter title and subtitle with volume number and part number, if applicable. On classified documents, enter the title classification in parentheses.
- **5a. CONTRACT NUMBER.** Enter all contract numbers as they appear in the report, e.g. F33615-86-C-5169.
- **5b. GRANT NUMBER.** Enter all grant numbers as they appear in the report, e.g. AFOSR-82-1234.
- **5c. PROGRAM ELEMENT NUMBER.** Enter all program element numbers as they appear in the report, e.g. 61101A.
- **5d. PROJECT NUMBER.** Enter all project numbers as they appear in the report, e.g. 1F665702D1257; ILIR.
- **5e. TASK NUMBER.** Enter all task numbers as they appear in the report, e.g. 05; RF0330201; T4112.
- **5f. WORK UNIT NUMBER.** Enter all work unit numbers as they appear in the report, e.g. 001; AFAPL30480105.
- 6. AUTHOR(S). Enter name(s) of person(s) responsible for writing the report, performing the research, or credited with the content of the report. The form of entry is the last name, first name, middle initial, and additional qualifiers separated by commas, e.g. Smith, Richard, J, Jr.
- 7. PERFORMING ORGANIZATION NAME(S) AND ADDRESS(ES). Self-explanatory.

8. PERFORMING ORGANIZATION REPORT NUMBER.

Enter all unique alphanumeric report numbers assigned by the performing organization, e.g. BRL-1234; AFWL-TR-85-4017-Vol-21-PT-2.

- 9. SPONSORING/MONITORING AGENCY NAME(S) AND ADDRESS(ES). Enter the name and address of the organization(s) financially responsible for and monitoring the work.
- **10. SPONSOR/MONITOR'S ACRONYM(S).** Enter, if available, e.g. BRL, ARDEC, NADC.
- **11. SPONSOR/MONITOR'S REPORT NUMBER(S)**. Enter report number as assigned by the sponsoring/monitoring agency, if available, e.g. BRL-TR-829; -215.
- 12. DISTRIBUTION/AVAILABILITY STATEMENT. Use agency-mandated availability statements to indicate the public availability or distribution limitations of the report. If additional limitations/ restrictions or special markings are indicated, follow agency authorization procedures, e.g. RD/FRD, PROPIN, ITAR, etc. Include copyright information.
- **13. SUPPLEMENTARY NOTES.** Enter information not included elsewhere such as: prepared in cooperation with; translation of; report supersedes; old edition number, etc.
- **14. ABSTRACT.** A brief (approximately 200 words) factual summary of the most significant information.
- **15. SUBJECT TERMS.** Key words or phrases identifying major concepts in the report.
- **16. SECURITY CLASSIFICATION.** Enter security classification in accordance with security classification regulations, e.g. U, C, S, etc. If this form contains classified information, stamp classification level on the top and bottom of this page.
- 17. LIMITATION OF ABSTRACT. This block must be completed to assign a distribution limitation to the abstract. Enter UU (Unclassified Unlimited) or SAR (Same as Report). An entry in this block is necessary if the abstract is to be limited.
