Sacramento, CA 95834

Re: Case # IA2014927  
Complaint of Private Investigator John Nazarian

Dear Mr. Ziegler,

We are thankful for your call regarding the complaint involving Private Investigator John Nazarian. It is clear, based on the volume of information provided; including the documents sent to the FBI, Los Angeles Field Office that sufficient information exists for the initiation of an investigation.

If an honest and unbiased investigation is conducted, we are confident that the resultant effect will be the license revocation of Mr. Nazarian, as well as his conviction for a plethora of either federal or state criminal law violations, or both.

Based on the especially egregious nature of the allegations, it is hoped that Mr. Nazarian will experience a significant period of incarceration for such crimes as witness intimidation, cyber threats, and criminal threats to name a few.

In the interim, and as the documents indicate, it is requested that the California Department of Consumer Affairs petition for a restraining order against Mr. Nazarian listing the protected persons, organizations, and any individual affiliated with A Voice for Men and the National Coalition for Men previously indicated. It is also requested that Mr. Nazarian surrender all firearms in accordance with all state laws, for the protection of the listed persons and general public.

Please advise this organization in writing as soon as the temporary restraining order is obtained.

Sincerely,

*Paul Elam*
